DEPLOY

FLAT-PACKED CONCRETE

OMNI TANK SERIES

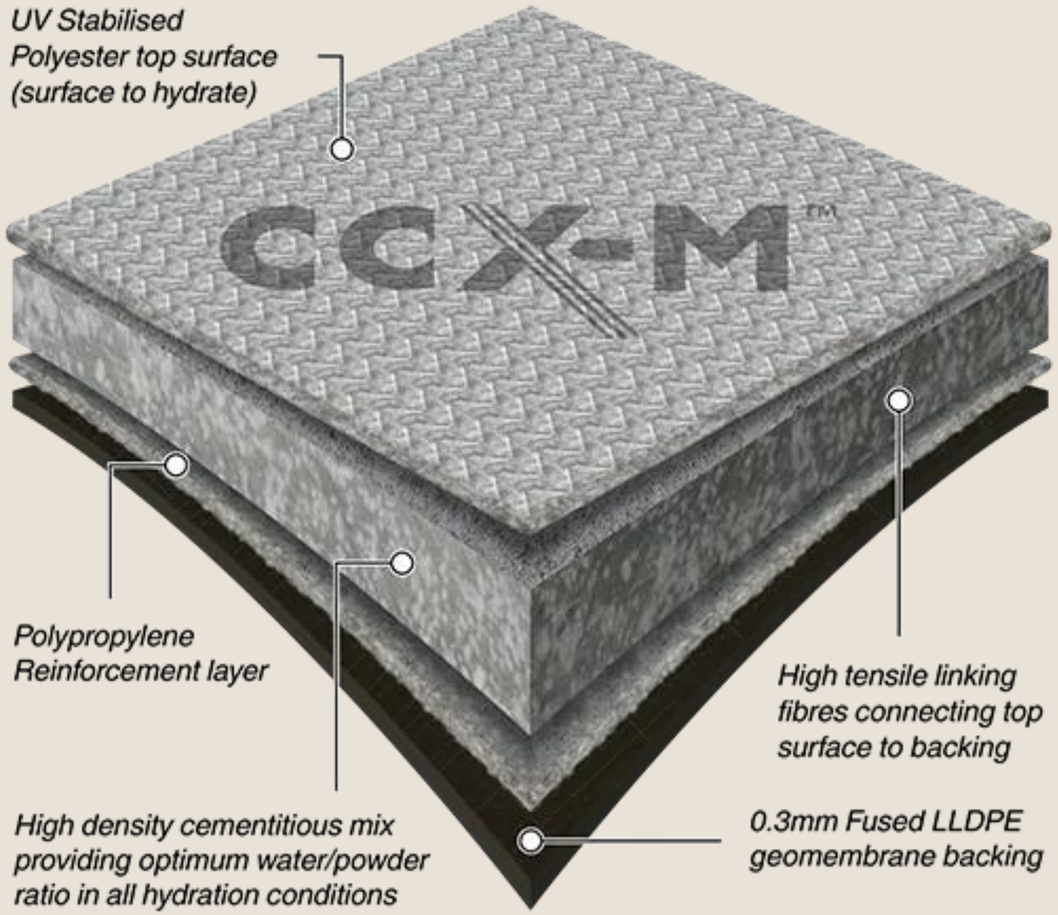

NEW Material – CCX®

Following the launch of **CCX-MAT® (CCX-M®)** manufactured by our partners Concrete Canvas Group. Deploy Tech Ltd started the redesign of the manufacturing line to create a more affordable water storage unit.

CCX-M has a 0.3mm LLDPE backing to ensure the material has very low permeability. The composite concrete top cover provides a high degree of long-term durability and can accommodate a high level of differential ground movement due to the fibre reinforcement imbedded within its structure.

This limits crack propagation whilst retaining low levels of permeability. As a result, CCX-M® is the ideal solution for Deploy Liquid Storage Units.

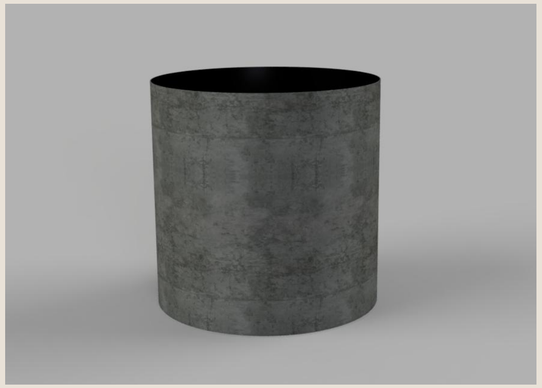

Budget Friendly Alternative

DEPLOY™ presents the Omni Tank Series. After 2 years of development on a new material and manufacturing process, it's finally here. It keeps the same durability and quality as our 14R, but now at a **price point** that goes head-to-head with plastic and galvanised steel tanks.

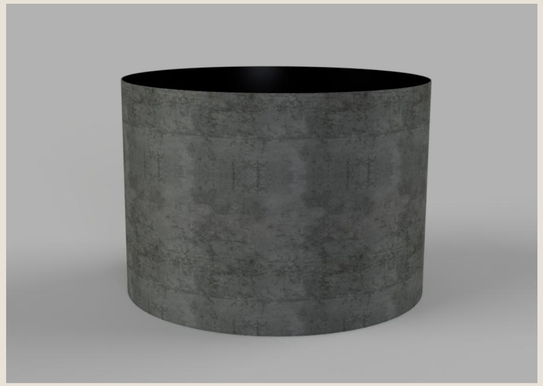

Sizes 2m³–30m³, perfect for rural development, humanitarian aid, agriculture, industrial wastewater treatment, decentralised water treatment plants, water management systems, and more.

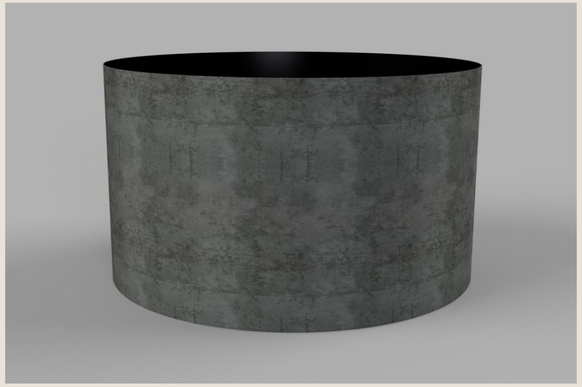

Capacity: **2 m³**
Diameter: 1.2 m
Weight: 145 Kg

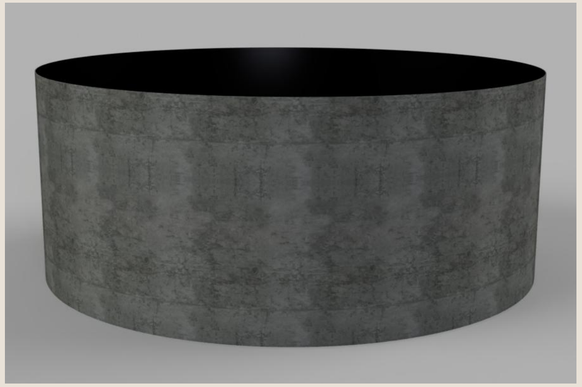

Capacity: **5 m³**
Diameter: 1.8 m
Weight: 205 Kg

Capacity: **10 m³**
Diameter: 2.6 m
Weight: 290 Kg

Capacity: **20 m³**
Diameter: 3.6 m
Weight: 400 Kg

Capacity: **30 m³**
Diameter: 4.6 m
Weight: 500 Kg

HOW IT WORKS

Same as the 14R model

1. BEFORE

· Flat-packed
· Efficient stacking and storing
· Easy to transport

2. INSTALLATION

· Unpack
· Inflate
· Hydrate

3. AFTER

· Easy to operate
· 100% Repairable
· Low-cost maintenance

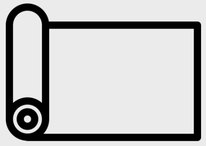

OMNI MAIN FEATURES

EASY TO TRANSPORT

· Packed into a **wooden crate**
· **Standard vehicle** delivery ready
· **Stackable** for stock

INSTA-SLAB

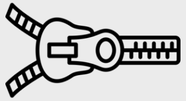

· Available for **any** Omni Tank **Size**
· Concreted base in **30mins**
· Lifespan **120 years**

INSTALLATION TIME

· **1 Day** to install whole tank
· Multiple installations can be achieved

DETACHABLE LID

· Easy to **repair and maintain**

UV PROTECTIVE LID

· Protection against **UV damage**

TECHNICAL SUPPORT TEAM

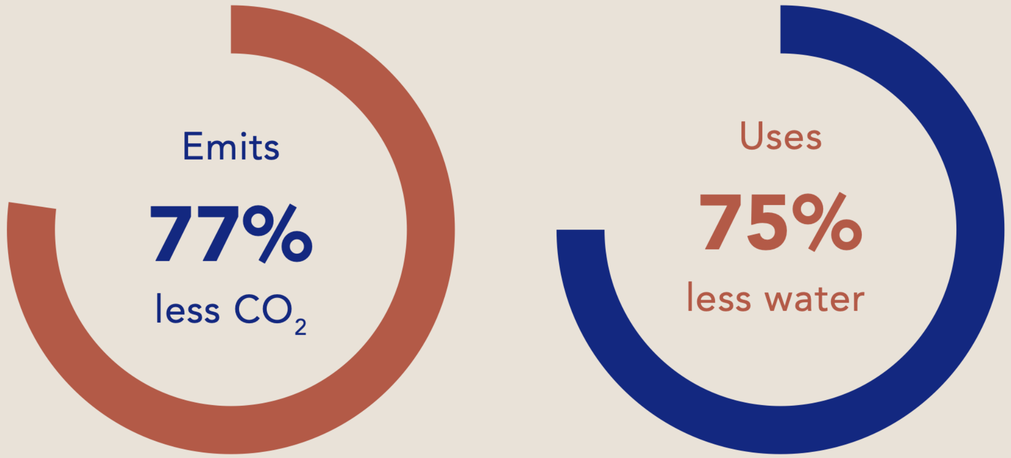

· Specialized training with our **technical** team

ENVIRONMENTAL IMPACT

We have the **lowest** carbon footprint on the market.

A GREEN PRODUCT

Compared to conventional concrete, our products will prevent the generation of **2 million tonnes of CO_2** by 2030, as its production and transportation:

SUSTAINABLE BENCHMARKING

Material and manufacturing CO_2 emissions.

MADE FOR QUALITY

We are an **ESG compliant company** and have been granted the ISO 9001 and ISO 14001 certifications.
