Environmental policy

IDATOR SA has made environmental protection an immediate priority. Recognising the need to rationally manage its activities, which has or may have any whatsoever impact upon the environment, it has continuously adopted and improved an Environmental Management System in accordance with the ISO 14001:2015 standard. The company's Management has established environmental targets that it monitors and revises where necessary, in order to ensure that these targets are adequate and effective for protecting the environment.

Within the context of its environmental policy, IDATOR SA is committed to:

- Perform its operations in accordance with the applicable legal and other requirements.
- Taking all necessary actions for monitoring, measuring, evaluating and improving its environmental performance.
- Continuously informing and training personnel on environmental management matters.
- Providing all necessary resources for the efficient operation of the System.
- Regularly communicating with all stakeholders for the dissemination of the environment-friendly policy and cooperating for dealing with environmental problems.
- Taking measures for preventing environmental accidents and tackling pollution from a potential accident.
- Cooperating with approved suppliers and their further evaluation based on environmental criteria.
- Using, wherever it is possible, new environmentally friendly resources and equipment.
- Developing environmental programs that are aimed at:
 - The rational management of natural and energy resources.
 - Reducing the waste generated and the rationally managing gaseous pollutants.
 - Reducing noise and vibrations.
 - Reusing and recycling materials and waste.

This Policy has been notified to all the human resources of IDATOR SA and is available to the interested parties. It is reviewed at regular intervals and is revised where necessary, in order to keep pace with developments.

On behalf of the Management
